About The Retreat

The residence is open and light with high ceilings throughout.

Thoughtfully furnished bedrooms include all furniture - bed, dresser, comfortable chair, closet or armoire, cable tv with dvd, and fresh linens. The cozy family room with fireplace opens to a covered patio for comfortable outdoor enjoyment.

Fresh landscaping enhances the setting and attracts a variety of butterflies and hummingbirds.

The front sitting room is cheerful and bright with clerestory windows, ceiling fan and plantation shutters - perfect for reading, visiting with family and friends or writing letters.

The Retreat is Our Residents' Home

My mother, Alice (Sweetpea), was the inspiration for The Retreat. I wanted to make a warm and happy home for her and other ladies. Our intention is to make a positive difference in the lives of our Residents by providing "home style" care in a stimulating, safe and family-oriented environment.

At this special time in their lives, we offer the recognition, honor, dignity and respect that they deserve.

We provide individualized and loving care based on the needs and desires of each Resident.

Our Residents' health, happiness and well-being are the priority of our staff. Each Resident is a valued member of the household, and Residents' loved ones appreciate what it means to be part of our family.

We provide an open door policy for families and friends of our Residents. We encourage you to visit your loved-ones at anytime, to participate in ongoing activities, birthday and holiday celebrations, or to join them for a meal.
